### Passports

A passport is an internationally recognized travel document that verifies the identity and nationality of the bearer. A valid U.S. passport is required to enter and leave most foreign countries. Only the [U.S. Department of State](#) has the authority to grant, issue, or verify U.S. passports.

Normal processing time to receive a passport is ordinarily 6 weeks. If you are in a hurry, for an expedited fee and payment of two-way overnight mail delivery, a passport can be received within 2 weeks. For life or death emergency, call the [National Passport Information Center](#) at 1-877-487-2778.

### Foreign Entry Requirements/Visas

Before traveling abroad, you will need to check with the country or countries you will be visiting to determine what, if any, entry requirements you must fulfill prior to your travel, such as a visa or immunization requirements.

### Emergencies and Warnings

The State Department's [Office of American Services and Crisis Management \(ACS\)](#) administers the Consular Information program, which informs the public of conditions abroad that may affect their safety and security. Consular Information Sheets, Public Announcements, and Travel Warnings are vital parts of this program.

In addition, ACS supports the work of our overseas embassies and consulates in providing emergency services to Americans in cases of arrest, death, crime victimization, repatriation, medical evacuation, temporary financial assistance and welfare-and-whereabouts cases.

### Medical and Travelers' Health Information

Before going abroad, travelers should learn what medical services their health insurance will cover overseas. A U.S. consular officer can assist in locating appropriate medical services for an American citizen who becomes seriously ill or injured abroad, but the payment of hospital and other expenses is the responsibility of the traveler. The Bureau of Consular Affairs provides information on their website relevant to medical emergency information for Americans traveling abroad.

In addition, the [Centers for Disease Control \(CDC\)](#) provides a resource page on health information for international travelers. The

[World Health Organization \(WHO\)](#)

also provides information about outbreaks of infectious diseases abroad.

### **U.S. Customs Inspection**

All persons, including U.S. citizens returning to the United States, are inspected by [U.S. Customs and Border Protection \(CBP\)](#)

Officers upon arrival at a port-of-entry to the United States. There are four separate inspections: Public Health, Immigration, Customs, and Agriculture. CPB Officers will conduct the Immigration, Customs, and Agriculture components of the inspections process. If a traveler has health concerns, he/she will be referred to a Public Health Officer for separate screening.
